I don't have a square space account with a square space is this not just a regular website

Feb 17, 11:39 AM

alxjos8

Is that something you can set up for me?

Feb 17, 11:39 AM

alxjos8

I'm not familiar with Square space

Feb 17, 11:39 AM

Me

No worries at all. You won't need any prior experience with Squarespace. I'll take care of all the technical details so you can focus on your ads and business.

Feb 17, 11:42 AM

You can simply create an account at Squarespace.com and share the login info with me. Once I have access, I can start working directly on your website and handle everything for you.

This way, you don't need to worry about the setup at all.

Thank you for sharing all the files. I've reviewed them carefully, and based on your requirements and my experience building similar insurance agency websites, I believe a 5-6 page website would be the best fit to properly present your services and build trust with visitors.

My standard package for a 5-page website is \$285 USD. Since you already ordered the 3-page package, we can simply add \$65 USD to upgrade and create the full 5-6 page website, which will allow us to include sections such as Services, About, Contact, and additional conversion-focused pages for your ads.

Please let me know if you'd like me to send the upgrade offer, and I'll prepare everything right away so we can proceed smoothly.

Best regards.
